

UNESCO AI Teacher Competency — Self-Assessment Rubric

Rate yourself across the framework's competency areas at three progression levels. Use it to plan your own professional development in AI.

Acquire = getting started • Deepen = applying confidently • Create = leading and innovating

Competency area	Acquire	Deepen	Create
Human-centred mindset on AI	■	■	■
Ethics of AI use with learners	■	■	■
AI foundations & applications	■	■	■
AI pedagogy (teaching with AI)	■	■	■
AI for professional development	■	■	■

How to use this rubric

- Circle your current level in each row, honestly.
- Pick **one** area to move up a level this term.
- Note one concrete action (a tool to try, a policy to read, a lesson to redesign).
- Re-assess in 8–12 weeks and record what changed.

This is an informal self-check inspired by the UNESCO framework's structure; it is not an official UNESCO certification instrument.
